All reports from this division leave no room for doubt of the result of the election. Dr. Harrison's success is assured. The Doctor has many circumstances in his favor. In the first place he has Right on has side; the represents the party that—while as tensions of Provincial Rights as others who make an increasant and meaningles, while about them.

The San should tell the whole atery. The other Provinces control their lands because they brenght them with them into Confederation. The Advitious Lands, on the other hand, were bought by the Damision from the Hudson Bay Company, and as a mater of Let are as much the property of the Damision set the Parliament buildings at Ottawa. Our position in this respect semewhat resembles that of the Territories in the United States. The people in the Eastern Provinces argui, and there is considerable force in it, that the Damision tressury, out of which the purchase money for this region was taken, aloud received the benefit of the treenue derived from the sale of the lands. But it is quite certain that, before long, the lands in Manitcha will be handed over to the Provincial Covernment.

To Let.

No Print Breast six review and Provinces argui, and there is considerable force in it, that the Damision treesury, out of which the purchase money for this region was taken, aloud received the benefit of the revenue derived from the sale of the lands. But it is quite certain that, before long, the lands in Manitcha will be handed over to the Provincial Covernment.

wince, he has demanded their transfer unceasingly. Two years ago, this was one of the leading planks in his platform, and he has held to it ever since.

How the return of Mr. Sifton for Brandin or the triumph of his party through the Province could induce the Dominion authorities to give us the lands, is not easily understood. It is quite conceivable, however, that a victory for the Provincial Rights party, which according to the Free Press is really advocating Sec ession, might lead the people in the East to refuse us the lands and decline to treat with us on the suject of better financial terms. They would hardly encourage dispatly to Confederation.—Winnings Times.

THE CONTEST.

As the day of election approaches, the contest in this division assets.

levelty to Confederation.—Winnings Times THE CONTEST.

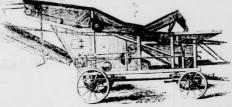

As the day of election approaches, the context in this division wares warmer, and Mr. Woodworth's chances of success are continually increasing. The enemy are showing their true colors in a way that might have been expected from the advocates of a cause which requires the most desparate means to prop it up. The supporters of Mr. Siton do not stop at thiles. The organ which epidess their cause is continully asserting that Mr. Woodworth is opposed to local self government, and that he has no independence whetever. These and similar untruthful assertions are made with the underobent interaction of hipring Mr. Woodworth is the estimation of the electors, but the very mideolence of the accusations which are harded at him by the Siftonites is its own refutation. A cause that requires such propring max indeed be week, and were the little sum of the contemporary possessed of one particle of shreadness, it wonds not expose the rottenness and hollowness of its causes so stupidly as it does. Mr. Woodworth does not heatstate one instant emphatically in declaring that he is in four of Maantoha's just rights, but he is not in sympathy with the howlers who threaten secression and builets who in their insensate lust for power would precipitate this Province into rebottlen of its were not for the circumstance.
